

## Vintage Brass 3-Gang Toggle Switch, 120V AC, UL Listed, IP20

### OVERVIEW

The C-VTG-SW3-VB is a 3-gang toggle switch finished in vintage brass, designed for residential and light commercial wiring applications where a traditional aesthetic is required. The brass construction and plate material provide durability alongside a classic appearance suitable for exposed switch installations.

The switch operates at 120V AC and carries a rated service life of 50,000 hours. It is rated IP20, suitable for dry indoor environments only and not intended for wet or damp locations.

This switch holds UL certification (File E313169) and is backed by a 1-year manufacturer warranty.
