

4-Gang Vintage Brass Toggle Switch, 120V AC, 150W Per Switch, 3-Way

OVERVIEW

The C-VTG-SW4-SB is a 4-gang vintage-style toggle switch plate finished in satin brass, designed for residential and light commercial wiring applications. The handcrafted brass construction gives each unit a distinctive appearance; note that minor chromatic variation between units is inherent to the manufacturing process. The plate accommodates four individual toggle switches in a single gang configuration rated at 120V AC.

Each switch is rated for 120V AC service with an IP20 environmental rating, suitable for dry interior locations only. The brass material provides durability consistent with commercial-grade hardware. Rated service life is 50,000 hours under normal operating conditions. This switch is non-dimmable and not rated for wet or damp environments.

The product carries a UL listing (file E313169) and is backed by a 1-year manufacturer warranty. Installers should verify local code compliance for the intended application. As a handmade panel, individual units may exhibit surface variation in finish tone, which does not affect electrical performance or listing status.

SPECIFICATIONS

IP rating	IP20	Rated life	50000 hours
Input voltage	120 V	Warranty	1 years
Dimensions	72x120mm / 120x120mm	Weight	0.5 lb

DIMENSION

Rated Life	50000
Rated Life UOM	Hours
Voltage	120V
Voltage UOM	AC
