

## 4-Gang Vintage Toggle Wall Switch, Nickel Stainless Steel, 110–250V

### OVERVIEW

The C-VTG-SW4-SQ2-NI is a 4-gang vintage-style toggle wall switch in a brushed nickel finish, designed for residential and light commercial installations where period-appropriate aesthetics are required. The panel is constructed from stainless steel with brass toggle hardware, offering a durable, corrosion-resistant surface suited for exposed decorative wiring applications.

The switch operates across a voltage range of 110–250V and is rated for a maximum current of 16A. The panel measures 86 × 86 mm with a 4 mm panel thickness and is compatible with standard 86-size junction boxes. The stainless steel panel and brass toggle construction provide long-term mechanical durability under normal switching loads.

This item is a Final Sale product and carries a limited 30-day warranty. Pricing reflects a 20% reduction from standard list price.

### SPECIFICATIONS

<b>Input voltage</b>	110-250 V	<b>Dimensions</b>	86 x 86 mm
<b>IP rating</b>	IP20	<b>Weight</b>	2 oz

### INSTALLATION

Suitable junction box:	86size
Applicable voltage:	110-250V
Certification:	CE
