

Vintage Brass 3-Gang Wall Plate, GFCI/Switch/Toggle Openings, 120V/15A, UL Listed

- 3-gang configuration with GFCI, switch and toggle openings
- Vintage brass finish for decorative residential installations
- Solid brass construction for durability
- Rated 120V / 15A for standard residential circuits
- IP20 rated for non-waterproof, dry indoor use
- UL listed with 1-year warranty

OVERVIEW

The C-VTG-VB-3-G-S-T is a 3-gang wall plate in vintage brass finish, configured with one GFCI opening, one switch opening and one toggle opening. Suited to residential supply applications where a traditional decorative aesthetic is paired with standard wiring devices, in retrofit and new-construction projects.

Constructed of brass with an IP20 rating for non-waterproof, dry indoor locations, the plate is rated for 120V and 15A circuits. The brass construction and finish provide a durable option for long-term residential installations.

The unit is UL listed and carries a 1-year warranty.
