

3-Gang Wall Plate, Vintage Brass Finish, GFCI and Two USB Openings, 120V/15A, UL Listed

- 3-gang configuration with one GFCI and two USB openings
 - Vintage brass finish over solid brass construction
 - Rated 120 V at 15 A for standard residential circuits
- IP20 rated, non-waterproof, for dry indoor locations
 - Supports LED-integrated devices rated to 50,000 hours
 - UL listed with a 1-year warranty

OVERVIEW

The C-VTG-VB-3-G-U-U is a 3-gang wall plate finished in vintage brass, configured with one GFCI opening and two USB openings for residential electrical supply applications. It suits installations where a classic brass aesthetic is paired with modern charging convenience.

The plate is rated for 120 V service at 15 A and carries an IP20 rating with a non-waterproof environmental rating, suitable for dry indoor environments. Brass construction supports a rated LED lifetime of 50,000 hours where LED-integrated devices are installed in the openings.

The assembly is UL listed and backed by a 1-year warranty.
