

Vintage Brass 4-Gang Wall Plate, Two Duplex and Two GFCI Openings, 120V 15A

- 4-gang configuration with two duplex and two GFCI openings
 - Vintage brass finish over solid brass construction
 - Rated for 120V service at 15A
- IP20 rated for dry, non-waterproof indoor locations
 - UL listed for verified electrical safety compliance
 - Backed by a 1-year manufacturer warranty

OVERVIEW

The C-VTG-VB-4-D-D-G-G is a 4-gang wall plate finished in vintage brass, configured with two duplex outlet openings and two ground-fault (GFI/GFCI) openings. It suits residential and light commercial wiring projects where a period-appropriate brass aesthetic is paired with standard 120V receptacle layouts.

The plate is rated for 120V service at 15A and carries an IP20 rating, appropriate for dry, non-waterproof indoor locations. It is constructed of brass for a durable, consistent finish suited to exposed installation in finished spaces.

The plate is UL listed and carries a 1-year warranty.
