

Vintage Brass 4-Gang Wall Plate, Decorator, GFCI and Two Switch Openings, 120V 15A

- Four-gang configuration with decorator, GFCI, and two switch openings
 - Vintage brass finish for period-appropriate aesthetic
 - Brass construction for durability and corrosion resistance
- Rated 120V, 15A for standard residential circuits
 - IP20 rated for indoor dry-location use
 - UL listed with 1-year warranty

OVERVIEW

The C-VTG-VB-4-D-G-S-S is a vintage brass 4-gang wall plate configured with one decorator opening, one GFCI opening, and two switch openings. It is intended for residential supply applications where a period-appropriate finish is required for retrofit or new construction installations.

The plate is rated for 120V/15A service and carries an IP20 rating, suitable for standard indoor dry-location use. Brass construction provides durability and corrosion resistance for long-term installation. It is classified as non-waterproof.

The assembly is UL listed and backed by a 1-year warranty.
