OVERVIEW

The C-VTG-VB-4-D-G-T-U is a 4-gang wall plate in a vintage brass finish, configured with one decorator opening, one GFCI opening, one toggle opening, and one USB opening. It is intended for residential supply applications where a mixed-device configuration is required in a single plate assembly.

The plate is rated for 120 V / 15 A service and carries an IP20 environmental rating with a non-waterproof environmental classification, suitable for dry indoor locations. Construction is solid brass, providing a period-appropriate aesthetic for residential installations where standard white or almond finishes are not specified.

The assembly is UL listed and backed by a 1-year warranty.
