

4 - Gang Wall Plate, Decorator, GFCI, Two USB Openings, Vintage Brass, 120V/15A, UL Listed

- 4-gang configuration with decorator, GFCI, and two USB openings
- Solid brass construction with vintage brass finish
- Rated for 120V circuits at 15A maximum current
- IP20 rated for non-waterproof, indoor installation
- UL listed for compliance verification
- Backed by a 1-year warranty

OVERVIEW

The C-VTG-VB-4-D-G-U-U is a vintage brass 4-gang wall plate built for residential supply applications requiring a traditional finish across mixed device types. The assembly combines one decorator opening, one GFCI opening, and two USB openings within a single multi-gang plate.

The plate is rated for 120V circuits at 15A and carries an IP20 rating for non-waterproof, indoor installations. Construction is solid brass with a vintage brass finish, suited to period-style or historic renovation work.

The device is UL listed and carries a 1-year warranty.
