

Vintage Brass 4-Gang Wall Plate, 120V/15A, IP20, UL Listed

- 4-gang wall plate in GGGS opening configuration
- Constructed of solid brass for long-term durability
- Rated for 120V service at up to 15A
- IP20 rated for standard indoor dry-location use
- UL listed for electrical safety compliance
- Backed by a 1-year manufacturer warranty

OVERVIEW

The C-VTG-VB-4-G-G-G-S is a vintage brass 4-gang wall plate assembled in a GGGS configuration for residence supply applications. Its decorative brass finish suits retrofit and new-construction projects where a traditional aesthetic is required alongside standard device openings.

The plate is rated for 120V/15A service with an IP20 rating, suitable for standard indoor dry-location installations. It is constructed of solid brass for durability and finished in vintage brass for a period appearance.

The device is UL listed and backed by a 1-year warranty.
