

Vintage Brass 4-Gang Wall Plate, Two GFCI and Two Toggle Openings, 15A 120V

- Four-gang configuration with two GFCI and two toggle openings
 - Constructed of solid brass with a vintage brass finish
 - Rated for 15 A maximum current at 120 V operating voltage
- IP20 environmental rating for non-waterproof, indoor use
 - UL listed for compliance verification
 - Backed by a 1-year manufacturer warranty

OVERVIEW

The C-VTG-VB-4-G-G-T-T is a vintage brass 4-gang wall plate configured with two GFCI receptacle openings and two toggle switch openings. It is intended for residential and light commercial wiring installations where a classic brass finish is specified across a mixed-device gang plate.

The plate is rated for 15 A at 120 V and constructed of brass with an IP20, non-waterproof environmental rating suited to indoor dry-location use.

The product is UL listed and carries a 1-year warranty.
