

4 - Gang Combination Wall Plate, Vintage Brass Finish, 120V 15A, UL Listed

- Four-gang assembly with two duplex receptacle openings, one toggle switch opening and one USB opening
- Constructed from solid brass with a vintage brass finish
- Rated 120 V and up to 15 A for residential supply circuits
- IP20 rated for non-waterproof, dry interior environments
- UL listed
- Backed by a 1-year warranty

OVERVIEW

The C-VTG-VB-4-G-G-T-U is a vintage brass 4-gang combination wall plate built for residential supply applications. The GGTU configuration provides two duplex receptacle openings, one toggle switch opening, and one USB opening within a single multi-gang assembly, suited for interior installations requiring mixed device functions.

Constructed from brass with a vintage brass finish, the plate is rated for indoor use at 120 V and up to 15 A, carrying an IP20 rating for protection against solid objects in dry interior environments.

The assembly is UL listed and backed by a 1-year warranty.
