

Vintage Brass 4-Gang Wall Plate, GFCI, Switch, Toggle and USB Openings, 120V 15A UL Listed

- Four-gang configuration with GFCI, switch, toggle and USB openings
- Solid brass construction with a vintage brass finish
- Rated 120 V, 15 A for standard residential circuits
- IP20 rated, non-waterproof, for dry interior installation only
- UL listed with a 1-year warranty

OVERVIEW

The C-VTG-VB-4-G-S-T-U is a vintage brass 4-gang wall plate configured with one GFCI opening, one switch opening, one toggle opening and one USB opening, suited to residential branch-circuit wiring device assemblies. The classic brass finish supports retrofit and new-construction work where a traditional decorative aesthetic is specified. Constructed from solid brass, the plate is rated for indoor use at 120 V and 15 A, matching standard residential circuit loads. It carries an IP20 rating and is designated non-waterproof, so installation should be limited to dry interior locations. The device is UL listed and carries a 1-year warranty.
