

Vintage Brass 4-Gang Wall Plate, GFCI, Toggle Switch and Two USB Openings, 120V/15A

- Four-gang brass plate with GFCI, toggle switch and two USB openings
 - Solid brass construction with a vintage brass finish
 - Rated 120V at 15A for standard residential circuits
- UL listed for compliance verification
 - IP20 rated, non-waterproof, for indoor use only
 - Backed by a 1-year warranty

OVERVIEW

The C-VTG-VB-4-G-S-U-U is a vintage brass 4-gang wall plate assembly built for residence supply applications, combining a GFCI opening, a toggle switch opening, and two USB openings in a single decorator-style plate. The brass finish suits retrofit and new-construction projects where a traditional aesthetic is specified alongside modern device functionality. The assembly is rated for 120V/15A service and is UL listed, with a non-waterproof IP20 rating suited to standard interior residential and light commercial wiring locations.
