

4 - Gang Wall Plate, Vintage Brass, GFCI, Toggle and Two USB Openings, 120V/15A, UL Listed

- 4-gang configuration with GFCI, toggle and two USB openings
- Vintage brass finish over brass material construction
- Rated 120V at 15A maximum current draw
- IP20 environmental rating for non-waterproof interior use
- UL listed device assembly
- Backed by a 1-year warranty

OVERVIEW

The C-VTG-VB-4-G-T-U-U is a vintage brass 4-gang wall plate configured with a GFCI opening, a toggle switch opening and two USB openings, intended for residential and light commercial supply applications. The brass finish suits retrofit and new-construction work where a traditional aesthetic is specified alongside modern device functions.

The assembly is rated for 120V operation at 15A and carries an IP20, non-waterproof environmental rating suited to interior use. It is UL listed and backed by a 1-year warranty.
