

4-Gang Wall Plate, Two Single Openings and Two USB Openings, Vintage Brass Finish, 15A 120V

- 4-gang configuration with two single openings and two USB openings
 - Solid brass construction with vintage brass finish
 - Rated 15 A at 120 V for standard residential circuits
- IP20 environmental rating for non-waterproof indoor use
 - UL listed assembly
 - Backed by a 1-year warranty

OVERVIEW

The C-VTG-VB-4-S-S-U-U is a 4-gang wall plate configured with two single device openings and two USB openings, built in solid brass with a vintage brass finish. It suits residential and commercial finish-out projects where a period-appropriate look is paired with modern USB accommodation in a single multi-gang plate.

The plate is rated 15 A at 120 V and carries an IP20 environmental rating for non-waterproof, indoor installation. Brass construction provides a durable base for the vintage finish across repeated device swaps.

The assembly is UL listed and backed by a 1-year warranty.
