

4-Gang Wall Plate, One Switch and Three USB Openings, Vintage Brass, 120V 15A

- 4-gang configuration with one switch and three USB openings
- Vintage brass finish over brass construction
- Rated 120V at 15A for standard residential circuits
- IP20 environmental rating for dry indoor locations only
- UL listed device
- Backed by a 1-year warranty

OVERVIEW

The C-VTG-VB-4-S-U-U-U is a 4-gang configurable wall plate assembly built for residential supply circuits, combining one switch opening with three USB openings in a single vintage brass frame. It suits retrofit and new-construction work where a traditional brass aesthetic is paired with modern USB charging access.

The assembly is rated for 120V operation at 15A and constructed of brass for durability in standard interior environments. It carries an IP20 environmental rating, indicating suitability for dry, non-waterproof indoor locations only.

The device is UL listed and backed by a 1-year warranty.
