

5 - Gang Combination Wall Plate, Vintage Brass Finish, 120V/15A, UL Listed

- Five-gang brass plate with three decorator, one switch, one toggle opening
 - Rated for 120 V service at a maximum current draw of 15 A
 - Vintage brass finish over solid brass construction
- IP20 rated for dry, non-waterproof indoor locations
 - UL listed assembly
 - Backed by a 1-year warranty

OVERVIEW

The C-VTG-VB-5-D-D-D-S-T is a five-gang combination wall plate finished in vintage brass, configured with three decorator openings, one single switch opening, and one toggle switch opening. It is built for residential supply installations where a period-style brass finish is paired with a mixed-device gang configuration.

The plate is rated for 120 V service at 15 A and carries an IP20 rating, suitable for dry, non-waterproof indoor locations. The brass material construction supports consistent finish and durability across the five-gang assembly.

The assembly is UL listed and backed by a 1-year warranty.
