

5 - Gang Combination Wall Plate, Duplex/Duplex/GFCI/Toggle/USB, Vintage Brass, 120V 15A

- Five-gang brass plate combines duplex, GFCI, toggle and USB openings
- Rated for 120V service at 15 A maximum current
- IP20 rating for standard indoor dry-location use
- Brass construction with vintage brass finish
- UL listed assembly
- Backed by 1-year warranty

OVERVIEW

The C-VTG-VB-5-D-D-G-T-U is a five-gang combination wall plate finished in vintage brass, built for residential supply installations. It combines two duplex receptacle openings, a GFCI outlet opening, a toggle switch opening, and a USB port opening in a single brass plate assembly, allowing multiple device types to be consolidated into one mounting location.

The plate is rated for 120V service at 15A and carries an IP20 rating, suitable for standard indoor dry-location use with a Non-Waterproof environmental rating. Brass construction provides a period-appropriate finish for residential retrofit or new construction work.

The assembly is UL listed and backed by a 1-year warranty.
