

5 - Gang Wall Plate, One Decorator, Two GFCI, Two Screwless Openings, 120V 15A, Vintage Brass

- Five-gang configuration with one decorator opening
- Two GFCI openings for combined switch and receptacle needs
- Two screwless-style openings for a cleaner mounting appearance
- Solid brass construction with vintage brass finish
- Rated 120V, 15A with IP20 environmental rating
- UL listed and backed by a 1-year warranty

OVERVIEW

The C-VTG-VB-5-D-G-G-S-S is a 5-gang vintage brass wall plate for residential supply applications, configured with one decorator opening, two GFCI openings, and two screwless-style openings in a single plate. The brass construction and vintage finish suit installations where a traditional aesthetic is paired with modern wiring devices.

The plate is rated for 120V, 15A service and carries an IP20 rating, suited to standard indoor dry-location use. It is UL listed and backed by a 1-year warranty, providing a documented compliance and support baseline for the specified configuration.
