

Vintage Brass 5 - Gang Screwless Wall Plate, Decorator, GFCI, Two Switch and Toggle Openings, 120V/15A

- Five-gang screwless plate with decorator, GFCI, two switch and toggle openings
- Constructed from solid brass in a vintage brass finish
- Rated 120V / 15A for standard residential wiring circuits
- IP20 environmental rating for dry, indoor installations
- UL listed for verified electrical safety compliance
- Backed by a 1-year manufacturer warranty

OVERVIEW

The C-VTG-VB-5-D-G-S-S-T is a five-gang wall plate finished in vintage brass, intended for residential supply installations where multiple wiring devices are grouped on a single plate. The screwless design combines one decorator opening, one GFCI opening, two switch openings and one toggle opening, suiting period-style interiors that call for a cohesive brass finish across multi-device locations.

The plate is constructed from solid brass and rated for 120 V / 15 A service, with an IP20 environmental rating appropriate for standard indoor, dry-location use.

The assembly is UL listed and backed by a 1-year warranty.

SPECIFICATIONS

OPTICAL
