

5 - Gang Vintage Brass Wall Plate, Decorator, GFCI, Two Switch and USB Openings, 15A 120V

- Five-gang configuration with decorator, GFCI, two switch and USB openings
 - Solid brass construction with vintage brass finish
 - Rated for 120V circuits at up to 15A
- IP20 rated for non-waterproof, standard indoor dry locations
 - UL listed assembly
 - Backed by a 1-year warranty

OVERVIEW

The C-VTG-VB-5-D-G-S-S-U is a five-gang wall plate finished in vintage brass, intended for residential and light commercial wiring installations. It combines one decorator opening, one GFCI opening, two switch openings and one USB opening in a single plate, allowing multiple devices to be grouped in a single location while maintaining a consistent finish.

Constructed from solid brass, the plate is rated for 120V circuits at up to 15A and carries an IP20 rating, indicating suitability for standard indoor dry locations rather than wet or damp environments.

The assembly is UL listed and backed by a 1-year warranty.
