

5 - Gang Wall Plate, Vintage Brass Finish, 120V/15A, UL Listed, Brass Construction

- Five-gang configuration with five standard openings
 - Vintage brass finish over solid brass construction
 - Rated 120 V at up to 15 A for standard wiring devices
- IP20 rated for non-waterproof, indoor environments
 - UL listed for compliance verification
 - Backed by a 1-year warranty

OVERVIEW

The C-VTG-VB-5-G-G-G-G-G is a 5-gang wall plate configured with five standard openings, finished in vintage brass for residential and light commercial wiring installations. It is intended for build-to-order supply configurations where a traditional brass aesthetic is specified across multi-gang switch or receptacle arrangements.

Constructed from brass, this wall plate is rated for indoor use at 120 V and up to 15 A, consistent with standard residential wiring device applications. The IP20 rating indicates protection against solid objects greater than 12 mm, suited to typical interior, non-waterproof environments.

The device is UL listed and carries a 1-year warranty.
