

Five-Gang Wall Plate, Three Receptacle Openings, One Switch and One USB, Vintage Brass, 120V/15A

- Five-gang configuration with three receptacle, one switch and one USB opening
 - Vintage brass finish over solid brass construction
 - Rated for 120V/15A service
- IP20 rated, non-waterproof, for dry indoor use only
 - UL listed
 - Backed by a 1-year warranty

OVERVIEW

The C-VTG-VB-5-G-G-G-S-U is a five-gang combination wall plate finished in vintage brass, configured with three receptacle openings, one switch opening and one USB opening. It is built for residential supply applications requiring multiple device types consolidated into a single gang box footprint with a traditional aesthetic.

Constructed from brass, the plate is rated for 120V/15A service and carries an IP20 rating, suitable for dry indoor environments only, as it is classified non-waterproof.

The product is UL listed and backed by a 1-year warranty.
