

5 - Gang Wall Plate, Three Combination, One Toggle, One USB Opening, 120V/15A, Vintage Brass

- Five-gang configuration with three combination, one toggle, one USB opening
 - Vintage brass finish over solid brass construction
- Rated 120 V / 15 A for standard residential circuits
 - IP20 rated for indoor dry - location, non - waterproof use
 - UL listed device with 1 - year manufacturer warranty

OVERVIEW

The C-VTG-VB-5-G-G-G-T-U is a 5 - gang wall plate finished in vintage brass, configured with three combination openings, one toggle opening, and one USB opening in a single assembly. It is built for residential supply applications where multiple device types must be consolidated into one plate.

The assembly is rated for 120 V / 15 A service and carries an IP20 rating for standard indoor dry - location use. The brass construction with a vintage brass finish gives the plate a period - appropriate appearance suited to renovation and custom residential builds.

The device is UL listed and backed by a 1 - year warranty.
