

5 - Gang Wall Plate, Vintage Brass Finish, 120V/15A, UL Listed

- Five-gang configuration with two GFCI, two switch and one toggle opening
- Vintage brass finish over solid brass construction
- Rated 120V at 15A for standard residential circuits
- IP20 environmental rating for dry interior use only
- UL listed assembly
- Backed by a 1-year manufacturer warranty

OVERVIEW

The C-VTG-VB-5-G-G-S-S-T is a 5-gang wall plate finished in vintage brass, configured with two GFCI openings, two switch openings and one toggle opening under a single cover. It is intended for custom residential supply layouts where multiple device types are combined in one gang arrangement.

Constructed from brass with a non-waterproof IP20 rating, the plate is rated for 120V/15A circuits and is suited to dry, interior locations rather than wet or damp environments.

The assembly is UL listed and carries a 1-year warranty.
