

5-Gang Vintage Brass Wall Plate, Two GFCI, One Switch, Two Toggle Openings, 120V/15A

- 5-gang configuration with two GFCI, one switch, two toggle openings
- Vintage brass finish over brass construction
- Rated for 120V service at 15A
- IP20 rated, non-waterproof environmental rating for dry locations
- UL listed
- Backed by a 1-year warranty

OVERVIEW

The C-VTG-VB-5-G-G-S-T-T is a 5-gang wall plate assembly finished in vintage brass, part of a configurable build-your-own residential supply series. The configuration includes two GFCI openings, one switch opening, and two toggle openings, suited for consolidating multiple device types into a single multi-gang installation.

The assembly is rated for 120V service at 15A and carries an IP20 rating with a non-waterproof environmental rating, indicating suitability for dry indoor locations only. Brass construction provides a traditional appearance for residential renovation or new construction where period-style hardware is specified.

The product is UL listed and backed by a 1-year warranty.
