OVERVIEW

The C-VTG-VB-5-G-G-S-U-U is a 5 - gang wall plate assembly configured with two decorator openings, one toggle switch opening and two USB openings, built to order for residential supply installations. The vintage brass finish suits period - style, upscale or custom residential projects where a traditional metal faceplate is specified. Constructed from brass, the assembly is rated for 120V/15A service and carries an IP20, non - waterproof environmental rating suited to indoor dry - location use. The device is UL listed and backed by a 1 - year warranty.
