

5 - Gang Wall Plate, Vintage Brass, Two GFCI, One Toggle, Two USB Openings, 120V 15A, UL Listed

- Five-gang brass wall plate with vintage finish
 - Configuration includes two GFCI, one toggle and two USB openings
 - Rated for 120V operation at 15A
- IP20 environmental rating for non-waterproof indoor use
 - UL listed
 - Backed by a one-year warranty

OVERVIEW

The C-VTG-VB-5-G-G-T-U-U is a five-gang wall plate assembly built from brass with a vintage finish, intended for residential supply installations where multiple device types are combined in one plate. The GGTUU configuration provides two GFCI openings, one toggle switch opening and two USB openings within a single decorative frame.

The assembly is rated for 120V operation at 15A and carries an IP20 environmental rating, classifying it as non-waterproof and suited for indoor dry-location use. It is UL listed and backed by a one-year warranty.
