OVERVIEW

The C-VTG-VB-5-G-S-S-S-U is a vintage brass 5 -gang wall plate configured with one GFCI opening, three switch openings and one USB opening, suited for residential supply applications requiring a mix of device types under one cover. Its brass finish provides a traditional aesthetic for retrofit and new - construction work where standard decorator - style devices are specified.

Constructed from brass, the plate is rated for indoor use at 120V/15A and carries an IP20 classification for dry, interior environments only.

The product is UL listed and backed by a 1 - year warranty.
