

Vintage Brass 5 - Gang Wall Plate, GFCI/Switch/Toggle Configuration, 120V/15A, UL Listed

- Five-gang plate finished in vintage brass
 - Configuration includes one GFCI, two switch, and two toggle openings
 - Rated for 120V, 15A circuits
- Brass construction for durability in interior installations
 - IP20, non-waterproof rating for standard indoor use
 - UL listed with 1-year warranty

OVERVIEW

The C-VTG-VB-5-G-S-S-T-T is a 5-gang wall plate finished in vintage brass, configured with one GFCI opening, two switch openings, and two toggle openings. It is intended for residential supply applications where a classic aesthetic is paired with multi-device accommodation in a single gang location.

Constructed from brass, the plate is rated for 120V, 15A circuits and carries an IP20, non-waterproof rating suited to standard interior installations. The five-opening layout allows mixed device arrangements at a single wall location without additional gang boxes.

The product is UL listed and backed by a 1-year warranty.
