

5 - Gang Wall Plate, Vintage Brass Finish, GFCI, Switch, Two Toggles and USB, 120V/15A, UL Listed

- 5 - gang configuration combining GFCI, switch, two toggles, and USB module
- Vintage brass finish over solid brass construction
- Rated for 120V, 15A electrical service
- IP20 environmental rating for dry interior installations
- UL listed for code compliance
- Backed by a 1 - year warranty

OVERVIEW

The C-VTG-VB-5-G-S-T-T-U is a 5 - gang wall plate finished in vintage brass, built to a GSTTU configuration that combines one GFCI outlet, one switch, two toggle switches, and one USB module in a single assembly. It is intended for residential supply applications where a traditional aesthetic is required across multiple device types.

Constructed from brass, the plate is rated for 120V/15A service and carries an IP20 environmental rating, indicating suitability for dry interior locations only. The assembly is non - waterproof and intended for standard indoor wiring installations.

The product is UL listed and backed by a 1 - year warranty.
