

5 - Gang Vintage Brass Wall Plate with GFCI, Switch, Toggle and Two USB Openings, 120V/15A, UL Listed

- Five-gang configuration combines GFCI, switch, toggle and two USB openings
 - Solid brass construction in a vintage brass finish
 - Rated for 120V, 15A residential supply service
- IP20 rated, non-waterproof, for dry interior use only
 - UL listed with a 1-year manufacturer warranty
 - 50,000-hour rated lifetime for internal electronic components

OVERVIEW

The C-VTG-VB-5-G-S-T-U-U is a five-gang wall plate finished in vintage brass, designed for residential supply installations where a classic aesthetic is required alongside modern device consolidation. The configuration includes one GFCI receptacle opening, one rocker switch opening, one toggle switch opening, and two USB charging openings within a single gang assembly.

Construction is solid brass rated for 120V/15A service, with an IP20 non-waterproof rating suitable for dry interior locations. The device carries a 50,000-hour rated component lifetime for its electronic elements.

The device is UL listed and backed by a 1-year warranty.
