

5 - Gang Wiring Device Plate, GFCI, Toggle Switch, Three USB Openings, Vintage Brass, 120V/15A, UL Listed

- Five-gang configuration with one GFCI, one toggle switch and three USB openings
- Vintage brass finish and brass construction throughout
- Rated for 120V / 15A branch circuits
- IP20 rating for non-waterproof, indoor installation
- UL listed for compliance verification
- Backed by a 1-year manufacturer warranty

OVERVIEW

The C-VTG-VB-5-G-S-U-U-U is a five-gang wiring device plate finished in vintage brass, built for multi-device electrical installations in residential and light commercial settings. The configuration combines one GFCI opening, one toggle switch opening and three USB openings on a single brass plate, allowing several device types to be consolidated at one location.

The assembly is rated for 120V / 15A branch circuits and carries an IP20 rating for non-waterproof, indoor use. The brass construction supports a classic finish while accommodating modern USB charging needs alongside standard switching and GFCI protection.

The device plate is UL listed and backed by a 1-year warranty.
