

5 - Gang Wall Plate, One Decorator Opening, Three Toggle Switches, One USB, Vintage Brass, 120V 15A

- Five-gang configuration: one decorator, three toggle, one USB opening
 - Vintage brass finish over solid brass construction
 - Rated 120V, 15A for standard residential circuits
- IP20 rating for non-waterproof interior use
 - UL listed for code-compliant installation
 - Backed by a 1-year manufacturer warranty

OVERVIEW

The C-VTG-VB-5-G-T-T-T-U is a five-gang combination wall plate finished in vintage brass, configured with one decorator opening, three toggle switch openings and one USB opening. It suits residential and light commercial wiring projects where multiple device types are combined into a single multi-gang assembly with a period-style metallic finish.

The plate is rated for 120V, 15A service and carries an IP20 rating suited to standard interior dry-location use. Brass construction provides consistent finish and durability across the five-gang assembly, and the device is UL listed.

The wall plate carries a 1-year warranty.
