

## White Brass 1-Gang Toggle Switch, 120V AC, IP20, UL Listed

### OVERVIEW

The White Brass 1-Gang Toggle Switch is a single-pole wall switch finished in vintage brass, designed for residential and light commercial wiring applications where a classic aesthetic is required alongside reliable switching performance.

The switch operates at 120V AC and carries a rated service life of 50,000 hours. The enclosure is rated IP20, suitable for dry indoor environments only; it is not rated for wet or damp locations. The plate and body are constructed from brass with a vintage brass finish.

The switch holds a UL listing (File E313169) and is backed by a 1-year manufacturer warranty.
