

3-Gang Wall Plate, White Brass Finish, Two GFCI Openings and One USB, 120V 15A

- White Brass finish over solid brass plate construction
 - Three-gang layout with two GFCI openings and one USB module
 - Rated for 120V/15A electrical service
- IP20 rated for indoor dry-location use
 - UL Listed for U.S. electrical safety compliance
 - Backed by a 1-year manufacturer warranty

OVERVIEW

The C-VTG-WB-3-G-G-U is a white brass 3-gang wall plate configured with two GFCI receptacle openings and one USB module, intended for standard duplex and USB-integrated outlet layouts in residential and commercial construction. The brass plate provides a durable metal cover for wiring devices in new construction or renovation work.

Constructed from brass with a white finish, the plate is rated for 120V/15A service and carries an IP20 rating, indicating protection against solid objects greater than 12mm with no specific moisture resistance, appropriate for standard indoor dry-location use.

The device is UL Listed and backed by a 1-year manufacturer warranty.
