

4-Gang Wall Plate, Three Decorator Openings and One GFCI, White Brass Finish, 120V/15A

- 4-gang configuration with three decorator openings and one GFCI opening
- Brass construction with white brass finish
- Rated for 120 V and 15 A residential circuits
- IP20 environmental rating for standard interior use
- UL listed
- Backed by a 1-year warranty

OVERVIEW

The C-VTG-WB-4-D-D-D-G is a 4-gang wall plate finished in white brass, configured with three decorator-style openings and one GFCI opening. It is suited for residential and light commercial installations where a coordinated finish is needed across multi-device outlet configurations.

Constructed from brass, this wall plate is rated for indoor use at 120 V and 15 A. Its IP20 rating indicates protection against solid objects greater than 12 mm, making it appropriate for standard interior, non-waterproof environments.

The product is UL listed and carries a 1-year warranty.
