

4-Gang Wall Plate, Two Decorator Openings, GFCI and Switch Openings, White Brass, 120V 15A

- Brass construction with white finish for a uniform residential look
- Configured with two decorator openings, one GFCI opening, and one switch opening
- Rated for 120V, 15A electrical service
- IP20 rated for standard indoor dry-location installation
- UL listed for verified safety compliance
- Backed by a 1-year manufacturer warranty

OVERVIEW

The C-VTG-WB-4-D-D-G-S is a white brass 4-gang wall plate built for custom residence supply configurations, combining two decorator openings with a GFCI opening and a switch opening in a single assembly. It is intended for installations where multiple device types must be grouped in one gang location.

Constructed from brass with a white finish, the plate is rated for 120V/15A service and carries an IP20 rating, suitable for standard indoor dry-location use in non-waterproof environments.

The product is UL listed and backed by a 1-year warranty.
