

4-Gang Wall Plate, One Decorator and Three GFCI Openings, White Brass, 120V 15A UL Listed

- Four-gang layout with one decorator opening and three GFCI openings
- Brass base material with white finish
- Rated for 120V, 15A electrical service
- IP20 rating for non-waterproof indoor use
- UL listed for code-compliant installations
- Backed by a 1-year manufacturer warranty

OVERVIEW

The C-VTG-WB-4-D-G-G-G is a white brass 4-gang wall plate configured with one decorator-style opening and three GFCI receptacle openings. It is intended for residential and light commercial wiring installations where a finished cover plate is needed across a multi-gang box.

Constructed from brass with a white finish, the plate offers a solid, corrosion-resistant housing suitable for standard indoor environments. It is rated for 120V/15A service and carries an IP20 rating, indicating protection against solid objects greater than 12mm with no specific moisture resistance.

The plate is UL listed and backed by a 1-year warranty.
