

4-Gang Wall Plate, One Decorator, Two GFCI and One Switch Opening, White Brass, 120V 15A UL Listed

- Configured with one decorator, two GFCI and one switch opening
- Machined from solid brass with a white brass finish
- Rated for 120V circuits at up to 15A
- IP20 rated, non-waterproof for dry interior use
- UL listed for compliance verification
- Backed by a 1-year manufacturer warranty

OVERVIEW

The C-VTG-WB-4-D-G-G-S is a white brass 4-gang wall plate built for mixed-device installations, combining one decorator opening, two GFCI openings and one switch opening in a single brass cover plate. It suits residential and light commercial supply panels where multiple device types are grouped in a common gang box.

The plate is machined from brass with a white brass finish, rated for 120V circuits at up to 15A. It carries an IP20 environmental rating and is classified non-waterproof, suited to dry interior locations.

The device is UL listed and backed by a 1-year warranty.
