

White Brass 4-Gang Wall Plate, Decorator/GFCI/Screwless Openings, 120V 15A UL Listed

- Four-gang configuration with decorator, GFCI, and two screwless openings
 - Brass construction with white finish for a residential-grade appearance
- Rated for 120V/15A electrical service
 - IP20 rated for dry indoor, non-waterproof environments
 - UL listed for code-compliant installations
 - Backed by a 1-year manufacturer warranty

OVERVIEW

The C-VTG-WB-4-D-G-S-S is a four-gang wall plate built for residential and light commercial wiring installations. Configured with one decorator opening, one GFCI opening, and two screwless openings, it supports mixed device arrangements in a single finished plate for multi-outlet or switch-and-receptacle layouts.

Constructed from brass with a white finish, the plate is rated for 120V/15A service and carries an IP20 rating, making it suitable for dry indoor environments rather than wet or wash-down locations.

The unit is UL listed and backed by a 1-year warranty.
