

4-Gang Wall Plate, Three GFCI Openings and One USB, White Brass Finish, 120V 15A

- Four-gang configuration with three GFCI openings and one USB opening
- White brass finish over solid brass construction
- Rated for 120V, 15A electrical service
- IP20 rated for dry, non-waterproof indoor use
- UL listed for code-compliant installation
- Backed by a 1-year manufacturer warranty

OVERVIEW

The C-VTG-WB-4-G-G-G-U is a 4-gang wall plate configured with three GFCI openings and one USB opening, finished in white brass. It is intended for multi-gang electrical box installations in commercial and residential settings where combined ground fault protection and USB charging access is required at a single location.

Constructed from brass, the plate is rated for 120V/15A service and carries an IP20 rating, suitable for dry indoor environments with a non-waterproof environmental rating.

The assembly is UL listed and backed by a 1-year warranty.
