

4-Gang Combination Wall Plate, GFCI, Ground, Toggle and USB Openings, White Brass, 15A 120V

- Constructed of solid brass for mechanical durability
- Finished in white brass to match residential and commercial trim
- Rated 15 A at 120 V for standard branch-circuit devices
- IP20 rated for indoor, non-waterproof mounting locations
- UL listed for electrical safety compliance
- Backed by a 1-year manufacturer warranty

OVERVIEW

The C-VTG-WB-4-G-G-T-U is a white brass 4-gang combination wall plate configured with GFCI, ground, toggle, and USB device openings. It is intended for wiring applications where multiple device types must be consolidated into a single gang location, reducing the number of separate plates required across adjacent boxes.

The plate is constructed of brass with a white brass finish and is rated for 15 A at 120 V, matching standard branch-circuit wiring devices. It carries an IP20 environmental rating for indoor, non-waterproof installations.

The assembly is UL listed and backed by a 1-year warranty.

SPECIFICATIONS

OPTICAL

LED Lifetime	50,000 h
