

White Brass 4-Gang Wiring Device, 120 V, 15 A, UL Listed

- 4-gang configuration for multi-device wall assemblies
- Brass construction with white brass finish
- Rated 120 V at 15 A for standard residential circuits
- IP20 environmental rating for dry indoor use
- UL listed for verified safety compliance
- 1-year manufacturer warranty

OVERVIEW

The C-VTG-WB-4-G-S-T-T is a white brass 4-gang wiring device intended for residential and light commercial power distribution. Part of a configurable "Build Your Own" platform, it is designed for installation by licensed electrical contractors in applications requiring multi-gang device assemblies.

Constructed from brass with a white brass finish, the device is rated for 120 V service at 15 A and carries an IP20 environmental rating, making it suitable for dry indoor locations only.

The device is UL listed and backed by a 1-year warranty.
