

4-Gang Wall Plate with Decorator, Switch, Toggle and USB Openings, White Brass, 120V 15A, UL Listed

- Four-gang configuration with decorator, switch, toggle and USB openings
- Brass construction with white brass finish
- Rated 120V at 15A maximum current draw
- IP20 rated for dry indoor environments
- UL listed for U.S. electrical code compliance
- 1-year manufacturer warranty

OVERVIEW

The C-VTG-WB-4-G-S-T-U is a build-your-own 4-gang wall plate combining a decorator opening, a rocker switch, a toggle switch and a USB opening in a single white brass housing. It is intended for residential wiring installations where multiple device types are consolidated into one multi-gang plate.

The housing is constructed of brass with a white brass finish and is rated for 120V operation at up to 15A current draw. The IP20 rating indicates the assembly is suited for dry indoor locations without exposure to moisture or dust intrusion beyond solid objects larger than 12mm.

The device is UL listed and carries a 1-year manufacturer warranty.

SPECIFICATIONS

OPTICAL

LED Lifetime	50,000 h
