

White Brass 4-Gang Wall Plate, 120V 15A, UL Listed

- Brass construction with white brass finish for durability
 - Rated 120V at 15A for standard residential circuits
 - IP20 rated, non-waterproof, for indoor dry-location use
- UL Listed for code-compliant installations
 - Backed by a 1-year manufacturer warranty
 - 4-gang configuration for combined switch and outlet layouts

OVERVIEW

The C-VTG-WB-4-G-S-U-U is a white brass 4-gang wall plate designed for residential and light commercial wiring installations. It accommodates four device openings for switches, receptacles or USB modules in a single multi-gang configuration, allowing a clean, unified appearance across combined outlet and switch layouts.

The plate is rated for 120V service at 15A and carries an IP20 environmental rating, classifying it as non-waterproof and intended for indoor, dry-location use. Its brass construction with a white brass finish provides a durable, corrosion-resistant surface suited to frequent handling.

The device is UL Listed and backed by a 1-year warranty.
