

White Brass 4-Gang Wall Plate, One GFCI and Three Toggle Openings, 120V/15A

- 4-gang configuration with one GFCI and three toggle openings
 - Finished in white brass over a brass base material
 - Rated for 120 V operation at 15 A current draw
- IP20 rated for non-waterproof, dry interior use
 - UL listed for compliance verification
 - Backed by a 1-year manufacturer warranty

OVERVIEW

The C-VTG-WB-4-G-T-T-T is a build-your-own 4-gang wall plate finished in white brass, configured with one GFCI opening and three toggle switch openings. It is intended for commercial and residential electrical installations requiring a multi-device cover solution.

Constructed from brass, the plate is rated for indoor use at 120 V and 15 A, suitable for dry interior environments where a mix of GFCI and toggle devices is installed. The assembly carries an IP20 rating and a non-waterproof environmental rating.

The device is UL listed and backed by a 1-year warranty.
