

4-Gang Wall Plate, GFCI, Toggle and Two USB Openings, White Brass, UL Listed, 120V/15A

- Four-gang configuration with GFCI, toggle and two USB openings
- Constructed from brass with a white finish
- Rated for 120V/15A residential circuits
- IP20 rating suited to dry indoor environments
- UL listed
- Backed by a 1-year warranty

OVERVIEW

The C-VTG-WB-4-G-T-U-U is a four-gang wall plate configured with a GFCI opening, a toggle switch opening and two USB openings, built for residential and light commercial wiring where a metallic decorator-style finish is required. It accepts standard Decora-style devices arranged across the four gang positions.

Constructed from brass with a white finish, the plate is rated for 120V/15A circuits and carries an IP20 rating, suitable for dry indoor installations rather than wet or damp locations.

The product is UL listed and backed by a 1-year warranty.
