OVERVIEW

The C-VTG-WB-4-G-U-U-U is a 4 - gang wall plate built from brass with a white brass finish, configured with one GFCI opening and three USB openings for combined power and charging access at a single location. It is intended for residential and commercial electrical installations requiring a durable, finished cover plate over supply devices.

The plate is rated for 120V at 15A service and carries an IP20 environmental rating, indicating non - waterproof use suited to interior, dry - location installations.

The device is UL listed and backed by a 1 - year warranty.
